

Dear UWELL Fam,

We would like to take the opportunity to introduce the latest UWELL product to you, Crown V Kit.

## Main Features

### Multiple Mesh Coils for Multiple Vape Experience

The single, dual, and triple mesh coils can fully and evenly atomize e-liquid and offer you excellent flavor and vapor.

- (1) 0.23Ω single mesh coil, it has the smoothest airflow to give you the smoothest direct-to-lung vape. The fragrance and sweetness of the e-liquid burst out with rich flavor; (pre-installed)
- (2) 0.3Ω dual mesh coil, it has the least airflow compared to the other two coils, suitable for a restricted direct-to-lung vape. The vapor is warmer and the flavor is saturated; (included in the packaging)
- (3) 0.2Ω triple mesh coil, slightly tight airflow gives you slightly tight direct-to-lung vape. It offers a fairly strong throat hit. You can always get huge vapor and decent flavor with it. (Sold separately)

### Patented Self-Cleaning Technology

Crown V tank can absorb the e-juice in the condensation holder through regular usage and vaporize it. It reduces juice leakage and waste and lessens the cleaning frequency.

### UWELL Exclusive Pro-FOCS Flavor Testing Technology

Pro-FOCS Flavor Testing Technology provides vapers the ultimate vaping experience by properly controlling the heating temperature, strictly managing the material quality, and completely restoring the original flavor.

### TFT COLOR SCREEN

0.96-inch TFT color screen with a brand-new user interface, it can display more comprehensive data and provide a more convenient operation experience.

### Type-C fast charging

The Crown V mod has dual 18650 batteries to offer power, and a Type-C port for fast and convenient charging, for you to enjoy vaping anytime, anywhere.

### Dual Work Modes, simple but enough

If you are a new vaper, power mode would be recommended for it's easy to operate.

If you are an experienced vaper, TCR mode would also be recommended for stable output and more choices.

### Specification ( UWELL CROWN V Tank )

**Material:** Stainless Steel, Pyrex  
**Size:** Diameter 29 mm × Height 50.5 mm  
**Net Weight:** 61 g  
**Capacity:** 5 ml  
**Thread:** 510

### Specification ( UWELL CROWN V Mod )

**Material:** Zinc Alloy, PC+ABS, Aluminum alloy  
**Size:** 86.2mm × 53mm × 26.2mm  
**Net Weight:** 122g  
**Power Range:** 5-200 W  
**Voltage Range:** 0.7-8.0 V  
**Resistance Range:** 0.1-3 Ω (VW) 0.1-1Ω (TC)
